Re: Monsanto - J. F. Queeny Plant  
Building FF Investigation

Dear Pat:

Enclosed herewith please find two (2) copies of O'Brien & Gere's Phase II report on the investigation at the former FF Building at Queeny. As you can see from the report, we have not yet fully delineated the affected groundwater and soils in the area. Plans are currently being developed for additional work, as outlined in the report, to be done in late November or early December, weather permitting. I will keep you informed of our progress, and we will share the results with you when they are available.

If you have any questions, please call me at 314-694-6127.

Sincerely,

*Jo S. Hanson*
